

TRY A NEW STITCH

Kogin

This stitch is also called pattern darning.

This stitch is done with straight stitches, but is so much fun to see how the pattern develops.

Just go across the row, bringing up your needle at 1, down in 2, up in 3, etc. At the end of the row, drop down and follow the next row back. The thread may show through on the back, but that just adds to the depth of the stitch. Enjoy!
